
PRESIDENT'S MESSAGE

10.5005/cej-5-1-v

Very warm fraternal greetings to my colleagues!

In these challenging moments of the pandemic, it is our resolve, self-confidence and ability to adapt to adversities which will be the way forward. Need arises for a thorough introspection in our contributions to our speciality as administrators, academicians and clinicians. As a responsible health worker practices, we may adopt the COVID-19 protocols in obtaining case history including travel details, disinfection protocols, upgradation of armamentarium and above all personal protection barriers. As the curtains are drawn down on my presidential tenure by the middle of September, the baton will be passed on to the able hands of the President-Elect Dr Romel Joseph. I thank the following people who have been my strong pillar of support for our fraternities exponential growth—Secretary of CAESOK Dr Afzal A, President-Elect Dr Romel Joseph, all Past Presidents, Vice Presidents, Secretaries and Executive Committee Members. I wish the new upcoming team of office bearers the very best for a fruitful tenure.

Fraternaly yours,

Rajesh Pillai MDS
President, CAESOK
